RUB A DUB DUB

CASE REVISITED...The

Care Bears News Staff uncovered previously sealed court records on the trio that terrorized this den a few seasons ago. The terror was brought to light the day a little blond girl came home & discovered her door open & upon entering found her home trashed.

Two chairs were broken & a third had a weird smell. Her freezer was open & meat was strewn about the kitchen upon a flour covered floor. The cow pot-holders...a gift from her woodsman...were lying under a frying pan at the bottom of a sink filled with water.

Teeth marks were found in the holly-soaked air fresheners located about the house for the Christmas holiday. Hearing noises coming from the bathroom, the owner peeked thru the keyhole to find her little rubber ducky -Quackers-being tortured. Quackers & his friend Black Beak were being held down in the toilet while it was being flushed. Police afterwards stated that the ducky shower curtain appeared to be used as examples of the torture to be inflicted.

The home owner, afraid for her ducks, phoned the Rangers and after negotiations- picnic baskets were promised- the trio surrendered & were immediately bear trapped.

This reporter was able to track down all three of the bears and found their were-a-bouts. Their tails can finally be told:

...I hunt screwy ducks & rascly rabbits-I don't do bears...although... Yogi Bear... hmm... a BooBoo trap maybe... HEH HEH...

-----Elmer Fudd at a recent local NRA chapter meeting.

...continued from previous column

The Butcher Bear claimed during

his trial that he was not responsible for his actions that day. He claimed that he had become infected with Mad Cow Disease thru a cut on his paw while working. He also claimed the Rangers failed to provide gloves leaving him to work with bear hands. He was sentenced to 5 years hard labor in Brown Bear County Correctional Den.

Bakers Bear's testimony was originally televised from his hospital bed at the Yogi Clinic... not to be confused with the Yoga Clinc which was recently shut down for falsifying fung shui records leaving patients mis-informed about their alignment. Baker Bear was recovering from an unsupervised diet that went awry. "I went on the Atkins diet-me Baker Bear-I was fat-wheat, rye, sourdough, bagel chips-all the time." "Butcher Bear provided me with meat-how was I to know I was supposed to catch it and kill it myself to help lose weight." "He was the one in control..." Upon his release from Bear County General, Baker Bear was transferred to work camp at Black Bear Hills to serve a 3 year sentence.

The third defendant is currently residing at the JellyStone Sanitarium for the mentally ill. Doctors confirmed that Candlestick Bear was not fit to stand trial citing the years of abuse his body and mind took while making over 30 types of scented candles. His wife, Cinnamon Bear continues to run the Business without incident.

Please note: Police continue to look for the little blond girl accused of terrorizing a family of bears recently with a similar modus operandi. Police do not believe that this current case is related to the Rub A Dub Dub anniversary.

OTHER NEWS:

The Jewlery Exchange was robbed yesterday by a clutch of rabbits...the reportedly got away with over 25 carats.

Holly Beary marries Beary Manilow at a small ceremony - Pastor Chuck Beary presiding.
